EXPERIENCE

Kyndryl, Bengaluru – *Senior Middleware Consultant*

Jan 2022 - PRESENT

- Performed security vulnerability assessment and remediation of Apache HTTP server and OpenSSL.
- Renewed SSL Certificates for portals hosted on web servers & app servers.

Tata Consultancy Services, Bengaluru – *Assistant Consultant*

Jan 2011 - Dec 2022

Project Description – Supervalu INC./Unified Grocers (Jan 2011–Oct 2019)

SUPERVALU is a grocery industry leader, serving customers through a network of over 3000 owned, franchised and affiliated stores across the country. Their important roots are in supply and wholesale distribution.

Responsibility

- Designed and engineered solutions for new highly available web applications and worked closely with various other IT groups (Network, Security, Identity, Architecture, Change Management)
- Integrate Apache HTTP server, Apache Tomcat for Single Sign On (SSO) and Federation with Siteminder, Oracle Access Manager (OAM).
- Automated and scripted various tedious and repetitive manual tasks reducing wasted time and effort by more than 95%.
- Developed and implemented automated processes and methods to reduce time spent on deployments and maintenance tasks for supported technologies.
- Assist development teams in application deployments and related tools (SCM, GIT).
- Deployed applications and products to reverse proxy farms, Apache Tomcat farms with over 300+ internal and public facing highly available and high traffic B2A, B2B and B2C web sites, APIs and services.
- Performed continuous security vulnerability assessment and remediation of Apache HTTP server, OpenSSL, Apache Tomcat, AEM and other supported product suites. Upgraded and migrated 100+ applications to newer versions and platforms
- Worked with Network and Security team on designing the architecture of a New DMZ environment

Project Description – Avery Dennison(Nov2019–Dec2021)

Avery Dennison is a multinational manufacturer and distributor of pressure-sensitive adhesive materials (such as self-adhesive labels), apparel branding labels and tags, RFID inlays, and specialty medical products. The company is a member of the Fortune 500 and is headquartered in Glendale, California.

Responsibility

- Deployed applications and products to jboss application servers and websphere application servers
- Performed continuous security vulnerability assessment and remediation of Apache HTTP server, OpenSSL, Apache Tomcat and other supported product suites.
- Performing duties of GitHub administrator & Tableau administrator
- Installing and configuring SSL certificates for B2A, B2B and B2C websites
- Developed and implemented automation/scripts to reduce time on deployment and maintenance tasks
